

Smart Assets

Reduce inventory costs with Nivid's
Smart Assets Solution

Client Background

A nonprofit integrated healthcare network that is New York State's largest healthcare provider and private employer, with more than 74,000 employees whose core business is providing healthcare, urgent care and

Business Challenges

Lack of tracking capability of hospital equipment (beds, medical and housekeeping equipment, etc.)

Lack of inventory monitoring to manage depletion, refill, replace, fix, etc.

Solution

Our Smart assets solution give you anywhere, anytime asset connectivity and access with enormous scalability and IT/OT integration efficacies.

Nivid's Smart Assets solution addressed the challenges by providing:

- 01** Equipment tracking and inventory management (tag, classify, track, trace, and manage).
- 02** Efficient monitoring/management of medical equipment by reordering stock as it runs low.
- 03** Prevent inventory damage from environmental conditions.
- 04** Understanding your staff flow and dwell times in your facility.

Results Delivered

Improved visibility of assets and reduced operational costs.

Better operational efficiency, lower resource needed to manually monitor inventory.

Effectively track and manage assets in hospital facility.
